Українська – вільно

EMPLOYMENT OPTIONS

Remote work, office, project work, moving to another city or country.

WHAT AM I LOOKING FOR?

I would probably prefer to work in a good friendly team, long-term work on interesting projects. But at the same time, I am also open to any other format.

BIOGRAPHY

2008 - to date

Since 2008, I have been engaged in entrepreneurial activities related to production. In 2010, I registered my own trademark - DOORWOOD (<https://doorwood.ua>) and am promoting it. To do this, I am constantly improving in WordPress development, and literally before the war, there were plans to implement an entry into the American market, with a product of Ukrainian production. The outbreak of the war dramatically changed these plans and now I am open to realizing my skills in an IT company whose activities are not related to production in Ukraine.

EXPERIENCE

I have experience in: server administration, installation and management of a hosting panel, working with databases, creating sites of varying complexity and for different tasks, working with an online store on WooCommerce, integration with Google Analytics, Merchant Center, Google shopping, optimizing site performance on WordPress with server-level caching, multilingual sites, plugin localization, SEO optimization, instant indexing.

TECHNICAL SKILLS

- Experience in web development for about 3 years
- Understanding PHP/MySQL/HTML/CSS/JS/jQuery/GIT
- Experience with hosting (phpMyAdmin, SSL, mail server)
- Creating custom themes
- Work with a variety of plugins of varying complexity
- Website performance optimization
- Experience with SEO plugins (RankMath, Yoast SEO)
- Experience with WooCommerce
- Experience with ACF
- Experience with builders (Elementor, Divi, WPBackery, Gutenberg, Oxygen)
- Experience with localization plugins (Polylang, WPML, LocoTranslate).

ABOUT MYSELF

I have a wide experience of work in various formats, both in a team and individually. Continuous learning and self-development is one of my central principles. I am flexible, creative, set to see the final result and purposefully solve the tasks.
